SUBJECT: TYPIC/AMTOIL-1
Background Information on Medical Colleagues of AMTOIL-1 in Cuba

ACTION REQUIRED - REFERENCES

Action: FYI

1. In late December 1966 and early January 1967 [illegible]-1 debriefed AMTOIL-1 in detail regarding his medical colleagues still in Cuba. AMTOIL-1 said that most of them would like to leave Cuba. The majority of those described below are psychiatrists who are keenly aware of, and depressed by, the effect of the Castro regime. Almost all of the psychiatrists mentioned herein have friends and patients among Cuban Government officials and, in AMTOIL-1's opinion, those defecting would cooperate in extensive debriefings of their considerable knowledge. Most of them frequently travel abroad. AMTOIL-1 is attempting to maintain correspondence with the most promising. The defection of any of the psychiatrists would be especially harmful to the present Cuban Government, since it is faced with a rapid increase of suicides, mental illnesses, and alcoholism, stemming from a general breakdown of morals and mental health as traditional values are uprooted and replaced by repressive, unfamiliar demands.

2. In the descriptions that follow, it should be noted that the Department of Psychiatry of the University of Havana Medical School is composed of professors and instructors from the psychiatric staffs of several hospitals, where the classes actually are given; there is no University Hospital per se.

cit: Ch 9 3. Cuban Physicians Considered as Possible Prospects for Defection/ Operational Utilization

ACOSTA Nodal (fnu). Assistant Director of the Department
DOB: c. 1926 of Psychiatry of the University of Havana/Calixto Garcia Hospital. Full professor. Acosta, wife, and mother criticize the regime. Has son 13 years of age. Admits correspondence with a brother in the U.S. Takes a courageous stand against the regime but volubly indiscreet. In August 1966 said that he probably was going to be the father of an illegitimate child. Age 40, 5' 5", 140 pounds, almost totally bald. Would defect and cooperate in being debriefed if abroad with family. Possible defector

DOB: c. 1925 — 3. SUAREZ Ramos, Humberto. Assistant Professor of Psychiatry at the University of Havana/Calixto Garcia Hospital. Intelligent and professionally skillful. Admitted he is a candidate for the Cuban Communist Party in order to live more comfortably. Married to a former medical-school student who desires to leave Cuba and who constantly criticizes the political indoctrination in Cuban schools suffered by their four children. Suarez admits corresponding with a brother in Miami. Age 35-40, 5' 7", 170 pounds, black hair. Would probably defect and be debriefed if abroad with family. *Possible defector*

DOB. c. 1928 — 4. YODU Prevez, Rene. Assistant Professor of Psychiatry at the University of Havana/Calixto Garcia Hospital. Follows the dictates of the regime with commentary. Is sole member of Calixto Garcia staff to side with the staff of the Department of Medical Psychology of the University of Havana, headed by Jose Angel Bustamante, which is notoriously servile to the regime. Attended the 1966 international psychiatric congress in Madrid. Married and regularly fights in public with his wife. Mulatto, Age 35-40, 5' 11", 170 pounds, black hair. Vague possibility of defection and subsequent debriefing, if Yodu felt there was absolutely no risk involved. *Possible defector*

Sex: F
DOB c. 1940 — 5. Cunill, Cristina. Specially appointed Professor of Psychology of the University of Havana Medical School/Calixto Garcia Hospital. Only intimate friends know that she is firmly anti-regime, as she pretends the opposite, in order to support her widowed mother and younger brother Philip, currently majoring in English Literature at the University of Havana and attempting to obtain a scholarship for study abroad (probably England) in order to defect. Cunill may have been born in the U.S., when her father was a Cuban diplomat posted there. She would leave Cuba if it were not for family commitments. She is a courageous, discreet woman, about 26 years old, who might possibly work against the regime while still in Cuba, and most probably would do so if she and her family were outside of Cuba. Would seek a scholarship to study abroad if there were a way to make up for the loss of her monthly income of approximately 500 pesos, which is needed for the support of her family. *Potential defector*

DOB: c. 1939 — 6. Mora (fnu). Instructor of Psychiatry, University of Havana Medical School/Calixto Garcia Hospital. Admits he desires to leave Cuba but is too gripped by inertia or fear to try. His wife also wishes to leave. They have one or two children. Age 26-27, 5' 6", 130 pounds, blond hair. If abroad with family he would probably defect and consent to debriefing. He is too timid for any other operational utilization. *Possible defector*

DOB: c. 1928 — 7. PEREZ Villar, Jose. Instructor and head of the Department of Child Psychiatry, University of Havana Medical School/Calixto Garcia Hospital. Admitted being so emotionally distressed by his inability to leave Cuba that he requested not to teach university classes. He is attempting to leave through a scholarship, as a delegate to a medical congress, or through the translation/publication of Intelligence and Experience, a medical text by U.S. author James McV. Hunt, with whom he corresponds. He is married and has a 15-year-old son, whom he is resigned to leave behind to perform obligatory military service, in the event he and his wife can leave. Perez formerly attended a U.S. university. Age 39, 5' 7", 160 pounds, black hair. If outside of Cuba, Perez could be used as an access agent to Cuban officials, as his opposition to the regime is known to only a few friends. *Poss def*

political comments but desires to leave Cuba. In process of divorcing her husband, a physician for the Ministry of the Interior. They have two four- or five-year-old children. [illegible] is a mulatto, age 34, 5' 7", 145 pounds, black hair. She would be of little operational use, for she is too lazy to arrange travel outside of Cuba or to work against it.

DOB: c. 1936 — √H. *Sanchez, Isidoro. Instructor/Intern of Psychiatry, University of Havana Medical School/Calixto Garcia Hospital. Has an official post, possibly secretary of the Communist Youth, at the University of Havana, but actually plans to defect through obtaining a scholarship to study abroad, probably in England. The scholarship was authorized by the Cuban Government in September 1966. Sanchez is intelligent, discreet, and anti-Castro. He is a bachelor, 30 years of age, 5' 4", 130 pounds, black hair. It is virtually a certainty that Sanchez will defect while outside of Cuba. There would be an excellent chance of recruitment for use as an access agent. — Probable defector

DOB: c. 1932 — I. *Acevedo (fnu). Instructor of Psychiatry, University of Havana Medical School/Calixto Garcia Hospital. Worked to correct ills of the regime, now disillusioned, depressed, and criticizes the regime in public. Courageous and combative personality. Married, several small children. Brother of Miriam Acevedo, professional singer who represents Cuba at international events. Age 34, 5' 7", 150 pounds, brown hair. If abroad with family would probably defect and could be used as an access agent. — Possible defector

201-756158 — J. *ABDO Canasi, Jorge. Head of the Psychiatric Department of the National Hospital, Assistant Professor at the University of Havana Medical School. See paragraph 1 of OSMA-22,121, dated 30 December 1966.

~~201-107548~~ Sex: F — √K. *Frayde, Marta. 201-107564 Former director of the National Hospital, former delegate to UNESCO, Paris. Frayde told Cristina Cunill that she is completely anti-regime, that she personally told Fidel Castro that Communism is ... (obscenity) and that Castro just laughed by way of reply. She is rumored to be protected by Castro, who has allowed her to dedicate herself exclusively to private practice. AMCIL-1 has never met Frayde personally but believes that she would probably defect and undergo debriefing. — Possible defector

DOB: c. 1928 Sex: F — √L. *GARCIA Mauri, Clotilde. Assistant Professor of Medical Psychology of the National Hospital and of the University of Havana Medical School. She is single, sexually promiscuous, and has never revealed her political affiliation. Age 39, 5' 6", 125 pounds, brown (but changeable) hair.

DOB: c. 1933 — √M. *Grau, Miguel. Instructor of Psychiatry of the National Hospital/University of Havana Medical School. He is currently attempting to obtain a scholarship to study abroad in order to defect. Married, two children. Wife is sharply critical of the regime and wishes to leave soonest. Grau is the nephew of Pedro GRAU Triana, who reportedly made millions of dollars in construction and real estate before Castro came to power. Pedro Grau now lives abroad. He gave Miguel a European trip upon graduation from medical school. Miguel's wife is also from a wealthy family. Age 33, 5' 8", 140 pounds, brown hair. Once outside Cuba with his family, Grau would defect and possibly could be used as an access agent. — Probable defector

DOB: c. 1933 — √N. *MUNIZ Leon (fnu). Instructor of Psychiatry at the University of Havana Medical School/Mazorra Hospital of National Psychiatry. Openly anti-regime, Muniz has requested permission

to emigrate." He is married, has no children. Age 33, 5' 5", 150 pounds, light brown hair. Once allowed to leave, he could be debriefed, but his open request to emigrate would make any use as an access agent impossible in spite of his motivation.

D.O.B.: c.1932 — b. *Esteves, Carlos. Psychiatrist of the Civil Hospital of Cienfuegos. Secretly but firmly a dissident. Married, two or three children. Age 3-, 5' 7", 1-0 pounds, blond hair. AMTOIL-1 has had no contact with him since 1962.

4. Cuban Physicians Whose Defection is Dubious but not Impossible

D.O.B.: c.1924 — A. *Collado (fnu). Official psychiatrist of the Cuban Air Force and formerly of the National Hospital psychiatric staff. He is constantly poking fun at the Cuban Government in sparkling wit at parties that he regularly gives for friends in the Arts, whom he seems to cultivate. He is a close friend of Cristina Cunill and Marta Frayde, to whom he has admitted feigning approval of the Cuban Government. He is cultured and loves the good life. He was first married to Eva FREJA Ville, a French national formerly a professor at the Alliance Francaise in Havana, who is now living in France, since their amicable divorce in 1961. He has one child. Collado moves in high government circles. Age 42, 5' 7", 150 pounds, black hair. He might defect, if shown a good offer, in spite of traditionally seeking not to complicate his life. He can be reached through his former wife, with whom he maintains correspondence. AMTOIL-1 is trying to obtain her exact address.

D.O.B.: c.1927 — 201-741217

B. *Torroella, Gustavo. Professor of Psychology, University of Havana Medical School, and head of vocational guidance for the University of Havana. His brother-in-law is Raul Roa, Cuban Foreign Minister. Torroella is youth counselor for UNESCO with alternating postings in Paris and Havana. In 1960 he told AMTOIL-1 that he intended to publish books outside of Cuba in order to have income and pretexts to justify travel and residence abroad. In AMTOIL-1's opinion, Torroella studied and failed to justify Marxism, and obtained his current UNESCO posting so as to be out of Cuba. His wife Marta Kouri de Torroella and two daughters are presently in Havana. Age 39, 5' 8", 170 pounds, light brown hair. It is very doubtful that Torroella will openly break with the regime, even though he establishes a semi- or permanent residence abroad, but it might be worth approaching him when he has his family abroad because of his knowledge of, and access to, key Cuban Government officials.

D.O.B.: c.1929 — C. *Palacios, Claudio. National Coordinator of Psychiatric Care, Ministry of Public Health, and full Professor of Psychiatry at the University of Havana Medical School/Mazorra Hospital. He is extremely clever, intelligent, materialistic, and ambitious. He maneuvered himself into an important post and a wealthy private practice. He is a candidate for the Cuban Communist Party, which probably will be denied him because of a previous internship in a New York hospital, according to the opinion of Jorge Abdo Canasi, a former partner in medical practice. Palacios was a delegate to an international congress of psychiatry in Madrid in 1966. He has two daughters by a first marriage; no children by the second. Age 35-40, 5' 5", 170 pounds, brown hair. Defection is doubtful, but it is felt that Palacios would give serious consideration to the offer of any post that would enhance his professional career.

D.O.B.: c.1962 — D. *Cordoba, Armando de. National Coordinator of Psychiatric Teaching, Ministry of Public Health, full professor, head of the Psychiatric Department of the University of Havana Medical School/Pajardo Hospital. An aristocrat whose effortless adaptation to the regime surprised his cohorts, Cordoba is intelligent, ambitious for power and prestige. He is married, no children. His brother

is a former ambassador to Great Britain, who fears that the regime's excesses will strike him. Age 64, 5' 6", 140 pounds, brown hair. Because of his age and position, defection is highly doubtful, but he would consider any post that would enhance his international prestige; however, it is more likely that he will continue to prefer being an important man in a little country.

5. Cuban Physicians Whose Defection is Considered Virtually Impossible

DOB ? 1926 A. F *Rodriguez, Luis. Professor and Director of the University of Havana Medical School, he has been a member of the Communist Party in Cuba since a youth. He is intelligent, personable, and dedicated to his career. He is married and has three or four children. Age 36, 5' 7", 180 pounds, black hair.

DOB C.1925 √B. F *IRIZAGUI Dupuy, Fidel. Assistant Professor of the University of Havana Medical School. Member of the Cuban Communist Party. He is quite satisfied with the present situation - is well off financially, has prestige, and travels regularly. He was a delegate to the medical congress in India in 1966. DOB: 1932 √C. GX *AGUILAR Darrucoes, Jose. Rector of the University of Havana since August 1966. He made a rapid rise from Director of Rural Medicine to Vice-Minister of Public Health. He is credited with professional skill as an administrator and public relations type and is said to be a traveling companion of Fidel Castro. He is not believed to be a member of the Communist Party of Cuba. Aguilar is married and is a former classmate of AMTOIL-1's. Age 34, 5' 8", 170 pounds, black hair.

DOB: 1919 √D. F *DORTICOS Torrado, Francisco. Dean of the Medical School, University of Havana, and brother of the President of Cuba. AMTOIL-1 worked closely with him for six months in a Cienfuegos hospital and describes him as straightforward, honest, hard working, and one who avoids politics. His present post was forced upon him by his brother. He is married, and one of his sons is active in the Communist Youth. Age 47, height 5' 7", 180 pounds, grey-black hair.

DOB: C.1930 √E. F *ROJAS Ochoa, Francisco. Director of National Statistics and member of the Communist Party of Cuba. He represented Cuba as a delegate to the World Health Scholarship in Mexico in 1965 and to a 1966 conference concerning sanitation in Washington, D.C. He was a university classmate of AMTOIL-1's. Age 35-36, 5' 4", 140 pounds, brown hair, balding.

A Brazilian citizen resident in Cuba since 1961, Modesto is a fanatically anti-American Marxist who broadcasts to Brazil for Radio Havana. He is married to a Cuban whose wealthy father lives in Mexico but travels frequently to Cuba. Age 30-35, 6', 200 pounds, black hair, mulatto. In AMTOIL-1's opinion, Modesto is a dangerous political fanatic, about whom the Brazilian authorities should be warned.

A convinced Marxist-Leninist (and Castroite), he nevertheless was sharply critical of the Soviet suppression of the 1956 Hungarian Revolution, since he is of Hungarian descent. He is currently the director of psychiatric treatment for personnel of the Ministry of the Interior. His clinic is at the corner of Avenida de los Presidentes and 19th Street, Havana, in the building formerly occupied by the Brazilian Embassy. CURRENT DEVELOPMENT IN MEDICINE

[The following is a translation of the titles, authors and summaries of several articles which appeared in the Revista Cubana de Medicina, Vol. IV, No. 2, Havana, 30 April 1965. The pages are indicated before each title.]

129 SOCIAL PSYCHOLOGY: A STUDY ON ITS LIMITS AND BASIC CONCEPTS(*)

By Dr. Leopoldo E. Araujo Bernal(*)

(*) Professor of Medical Psychology. School of Medical Services of the University of Havana. Director of the Department of Social Psychology of the Institute of Advanced Nervous Activity.

137 ELECTROCARDIOGRAPHICAL ALTERATIONS IN THE TRANSVENTRICULAR MITRAL COMMISSUROTOMY

By Dr. A. Hernandez Canero(*), Dr. M. Amoedo Mon(**) and Dr. J. Castillo Navarro(**)

(*) Professor of Internal Medicine, Head of the Cardiology Department of the Comandante Manuel Fajardo Training Hospital.

(**) Assistant Specialists, Department of Cardiology of the Comandante Manuel Farjardo Training Hospital.

142 CONCLUSIONS

1. The electrocardiograms corresponding to 33 cases of mitral stenosis operated transventricularly were studied.

2. The rhythm variations, as well as the favorable changes in the auricular and ventricular complex are those which, according to other authors, are present in patients operated transauricularly.

JPRS Sub No 33413 ; Date 20 DEC 65
Trans. on Cuba No. 341 ; UNCL

3. Many instances of pericardic injury were observed immediately a[illegible] the operation. This injury is similar to that observed in patients [illegible] through the auricle.

4. We were able to observe a fast deviation of the QRS axis towards the left, accompanied by signs of left ventricular hypertrophy, which shows severe mitral insufficiency.

5. The possibility of myocardial infarction following the trans-ventricular mitral dilatation is mentioned.

165 CHRONIC OBSTRUCTIVE EMPHYSEMA(*) PSYCHOPATHOLOGY

By Dr. Alberto Orlandini N.(**)

(*) Presented before the First Regional Congress on Stomatology of Southern Oriente, on 29 October 1964.

(**) Resident of the Psychiatric Service, Provincial Training Hospital of Santiago de Cuba.

167 SUMMARY

The chronic obstructive emphysema with breathing insufficiency of the fourth degree originates first delirium, and then catatonic stupor. The phychic disturbances following the changes of consciousness are described.

188 CARDIOVASCULAR ASPECTS OF SICKLAEMIA(*)

By Dr. Jose Cabrera Flores(**) and
Dr. Hugo Camargo Gallegos(**)

(*) Presented before the First Regional Congress on Stomatology of Southern Oriente. Santiago de Cuba, October 1964.

(**) Dr. Enrique Cabrera Cosio Cardiovascular Department. Provincial Hospital of Santiago de Cuba.

190 CONCLUSIONS

After studying eight patients with Sicklaemia, the most important observation has been the enlargement of the electric systole shown by the electrocardiograms. This is to be confirmed in subsequent studies. Other observations are the presence of the Heglin syndrome in the two cases presenting the lowest hemoglobin level, the evolution with normal cardiac rhythm in most cases. This phenomenon is present in the evolution of chronic anemic syndromes and has not been fully explained yet.
